Objective

Aspiring software developer with a strong foundation in Java and front-end technologies. Seeking an opportunity to contribute to innovative projects while continuously enhancing technical expertise and gaining professional experience.

Education

Bachelor of Engineering in Electronics and Communication Engineering (ECE)

Mahendra Institute of Technology, Tamil Nadu
Expected Graduation: July 2024
CGPA: 8.00

Higher Secondary Certificate (HSC)

Government Boys Higher Secondary School, Tamil Nadu
Year of Completion: 2020
Percentage: 51%

Secondary School Leaving Certificate (SSLC)

St. Antony's Higher Secondary School, Tamil Nadu
Year of Completion: 2018
Percentage: 76.6%

Technical Skills

- **Programming Languages:** Java (OOPs, Exception Handling, Multi-threading, Collection Frameworks, Stream API and JDBC).

- **Web Technologies:** HTML, CSS.

- **Database:** MySQL.

- **Tools & Platforms:** Git, GitHub, Eclipse IDE, Visual Studio Code.

Certifications

Java Programming Course
Uniq Technologies, Chennai
May 2025 – Present

- Received comprehensive training in core Java concepts, object-oriented programming, and software development practices.

- Hands-on experience through real-time mini projects, enhancing practical coding skills and problem-solving abilities.

Projects

Inventory Management System – Java Console Application

- Developed a console-based inventory system using Java.

- Implemented features for adding, updating, deleting, and viewing products.

- Utilized HashMap for data storage, multi-threading for performance optimization, and exception handling for robustness.

- Designed a utility class for input validation and user interaction.

Workshops Attended

- **Machine Learning Workshop** – Indian Institute of Technology, Chennai
  Gained insights into machine learning algorithms and model development.
